

The NHS is moving into a new era of information sharing. Locally we have two areas of information sharing which require a decision from you as a patient.

**Enhanced Data Sharing Model (eDSM).....**

This is a new local information sharing initiative for Healthcare units using the same computer system as your GP Practice (SystemOne). With your permission it allows services such as District Nurses, Physiotherapy and some hospital departments, to share your **detailed** GP record. It also allows the GP to view what other units record about you, with your consent. We have 2 questions for you.

**Are you happy for.....**

Information on our computer system to be seen by Clinicians treating you in other health care settings who use the same system?

YES

NO

**Are you happy for.....**

This practice to view the information recorded about you at other healthcare settings who use the same system?

YES

NO

**The Summary Care Record(SCR).....**

Please read the information overleaf regarding National Summary Care Record (SCR).

I am happy to have an SCR

I do not want an SCR (you will need to sign an 'opt-out' document)

Your Name (print)..... Date of Birth.....

Your Signature..... DATE: .....

**NB. You can change your decision on any of the above at any time by letting your GP practice know**
